The camera was moved near the gate inside the gate shooting down the lane. It gives us a better count of vehicles using the range.

NEW BUSINESS:

The inside wall has been rebuilt. Only needs a couple of items and the indoor range can be opened again. Ran into problems with deterioration due to large guns shot at it. Need to somehow impress on everyone that only .22 can be used indoors. If cement behind is being damaged that is BAD. It is also a problem even with ear protection in that closed in area liability wise. Some want to use the area to sight in bows.

Set up a procedure for times when Fire Danger is high. Restrict after Phase 1 or Phase 2 restrictions?? Board felt it necessary to close after the long high temp period to prevent a problem.

Sight-in dates: Do we want 2?

PROGRAM (IF APPROPRIATE)
